PROFILE

Fullstack Developer with **5+ years** of commercial experience specializing in the **React and Redux** ecosystem and modern JavaScript (ES6+), with solid hands-on experience in **ASP.NET Core** and **EF Core**.

Experienced in building scalable end-to-end web applications, including secure authentication systems (**JWT, refresh tokens**), RESTful APIs, complex data-driven dashboards, and real-time data streaming via WebSockets. Proven ability to modernize legacy systems (**migration to .NET 8, transition to Vite**), implement containerized environments (**Docker + Mac OS**), and align business goals with technical implementation.

Focused on clean architecture, performance optimization, and delivering maintainable, high-quality code in production environments.

EXPERIENCE

SweetSoft INC. - *Frontend / Fullstack Developer* — *January 2021 – present, Kharkiv, Ukraine*

- Designed and implemented frontend architecture for a corporate insurance analytics platform using **React and Redux**, handling complex state management for aggregated operational data.
- Developed interactive data-driven dashboards using **React and Vite**, incorporating **WebSockets** for real-time data streaming, including complex visualizations **(dynamic charts, risk distribution diagrams**) and custom UI effects (**SVG filters, advanced SCSS, Figma-to-Code**).
- Designed and optimized **RESTful APIs** for large-scale data processing, improving frontend-backend integration with **MS SQL Server** via **Entity Framework Core** and query optimization.
- Implemented secure authentication and session management using **JWT** and refresh tokens **with ASP.NET Core Identity**.
- Established containerized development environments using **Docker** and **Docker Compose**, **including Dev Containers** support for cross-platform development (**ARM64**).
- Participated in the full development lifecycle, from requirements analysis and database design to deployment and production support using Git, Postman, and SSMS.

SweetSoft INC. - *Translator / Communication Assistant* — *April 2022 – June 2022, Kharkiv, Ukraine*

- Acted as a translator and communication bridge on a project developing a Human Resource Management System (HRMS)
- Facilitated smooth communication between product managers and the development team
- Helped clarify technical requirements and ensure alignment between business goals and implementation

Independent Developer - *Frontend / Fullstack Developer* — *July 2020 – December 2020, Kharkiv, Ukraine*

- Engineered several end-to-end applications using the MERN stack (MongoDB, Express, React, Node.js).
- Implemented secure JWT-based authentication and managed automated deployment workflows via Heroku and Netlify.
- Focused on building responsive UIs and state management logic, laying the foundation for professional transition into the React ecosystem.

Biopromin LTD - *CTO / Quality Manager* — *November 2006 – December 2020, Kharkiv, Ukraine*

- Directed the full development lifecycle of non-invasive medical devices, ensuring strict compliance with international quality standards and certifications
- Managed technical documentation, quality control systems, and provided high-level engineering support for complex medical hardware/software integration.

SKILLS

Hard skills

- **Frontend**: React, Redux / Redux Toolkit, WebSockets, JavaScript (ES6+), Vite, HTML5, CSS3/SCSS, Responsive Design
- **Backend**: .NET 8, ASP.NET Core, Entity Framework Core (EF Core), LINQ, RESTful APIs, JWT & Auth systems, WebSockets
- **Databases**: MS SQL Server (SSMS), Redis
- **DevOps & Tools**: Docker, Docker Compose, Git, Postman, Visual Studio Code Dev Containers, Netlify

Languages

- **English**: Intermediate (Technical & Business Communication)
- **Ukrainian**: Native
- **Russian**

Soft skills

- Critical Thinking & Problem-Solving.
- Technical Writing & Documentation.
- Cross-functional Team Collaboration.
- Strategic Planning

EDUCATION

IT Cloud Academy

March 2017 – July 2017, Kharkiv, Ukraine

IT Cloud Academy Career certification

- Certified associate in C# and .NET

KHARKIV NATIONAL UNIVERSITY OF RADIO ELECTRONICS

2004 – 2009, Kharkiv, Ukraine

FACULTY OF AUTOMATICS AND COMPUTERIZED TECHNOLOGIES

- Master's Degree in Manufacturing of Electronics, skill – Engineer of Banking Systems
