	address	Kharkiv, Ukraine

## PROFILE

Well motivated software developer with solid knowledge of JS (ES6), HTML5, CSS3. Experience with React, Redux +1 year. Good understanding of backend development principles (authentication, middlewares, REST API). Have basic knowledge of TypeScript, C#, .NET Core framework and ASP.NET Core. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. Strongly interested in improving skills in fullstack development, backend development and gaining experience with modern web frameworks. Will be glad to be involved in new technology stack

# PORTFOLIO PROJECTS\*

*\* Due to demo reasons and Heroku (hosting platform) free terms, if an app receives no web traffic in a 30-minute period, it will sleep. Therefore, during the first launch, the application may take longer to load than usual, approximately 15 - 20 seconds. So please be patient and wait for the app to launch. Subsequent launches will be relatively fast*
