React/.NET Fullstack Developer

PROFILE

Fullstack Developer with **5+ years of experience** specializing in **React and .NET**. Experienced in building scalable web applications, data-driven dashboards, and secure authentication systems. Focused on clean architecture, performance optimization, and real-time solutions using WebSockets

EXPERIENCE

SweetSoft INC. - Frontend / Fullstack Developer

January 2021 – present, Kharkiv, Ukraine

- Designed and implemented frontend architecture for a corporate insurance analytics platform using **React and Redux**, handling complex state management for aggregated operational data.
- Developed real-time dashboards with complex data visualizations using **React and WebSockets**, improving data visibility and reducing manual reporting efforts.
- Designed and optimized **RESTful APIs** for large-scale data processing, improving system latency using **Redis** caching and **SQL** query optimization via **Entity Framework Core**, integrating **AWS S3** for secure object storage
- Implemented secure authentication and session management using **JWT** and refresh tokens **with ASP.NET Core Identity**.
- Established containerized development environments using **Docker** and **Docker Compose**, including **Dev Containers** support for cross-platform development (**ARM64**).
- Participated in the full development lifecycle, from requirements analysis and database design to deployment and production support using Git, Postman, and SSMS.

Independent Developer - Frontend / Fullstack Developer

July 2020 – December 2020, Kharkiv, Ukraine

- Engineered several end-to-end applications using the MERN stack (MongoDB, Express, React, Node.js).
- Implemented secure JWT-based authentication and managed automated deployment workflows via Heroku and Netlify.
- Focused on building responsive UIs and state management logic, laying the foundation for professional transition into the React ecosystem.

Biopromin ltd - Chief Technology Officer / Quality Manager

November 2006 – December 2020, Kharkiv, Ukraine

- Directed the full development lifecycle of non-invasive medical devices, ensuring strict compliance with international quality standards (ISO 13485) and certifications.
- Managed technical documentation, quality control systems, and provided high-level engineering support for complex medical hardware/software integration.
- Assembling electronic devices, programming electronic devices
- Testing hardware, testing hardware + hi level software connection

SKILLS

Hard skills

- Frontend:** React, Redux / Redux Toolkit, WebSockets, JavaScript (ES6+), TypeScript, Next (app router), Vite, HTML5, CSS3/SCSS, Responsive Design, LTR to RTL, i18n, Apexcharts, Recharts
- Backend:** .NET 8, ASP.NET Core, Entity Framework, LINQ, RESTful APIs, JWT & Auth systems, WebSockets, xUnit, Moq
- Databases/Cloud:** MS SQL Server (SSMS), AWS S3, Redis
- DevOps & Tools:** Github Actions, Docker, Docker Compose, Git, Postman, Visual Studio Code Dev Containers, AI-assisted development, GitHub Copilot, ChatGPT/Claude/Gemini (prompt engineering), Netlify, Vercel

Languages

- English:** B2 (Technical & Business Communication)
- Ukrainian:** Native
- Russian:** Professional

Soft skills

- Critical Thinking & Problem-Solving.
- Technical Writing & Documentation.
- Cross-functional Team Collaboration.
- Strategic Planning

EDUCATION

ANTHROPIC ACADEMY

Claude Code in Action

May, 2026, Kharkiv, Ukraine

ANTHROPIC ACADEMY

CLAUDE CODE 101 course

April, 2026, Kharkiv, Ukraine

IT Cloud Academy

IT Cloud Academy Career certification

March 2017 – July 2017, Kharkiv, Ukraine

- Certified associate in C# and .NET

KHARKIV NATIONAL UNIVERSITY OF RADIO ELECTRONICS

2004 – 2009, Kharkiv, Ukraine

FACULTY OF AUTOMATICS AND COMPUTERIZED TECHNOLOGIES

- Master's Degree in Manufacturing of Electronics, skill – Engineer of Banking Systems
